Revolutionary Fluid Exchange Technology

SERIES CEX-14 COOLANT EXCHANGER

The Series CEX-14 is a pneumatic tool designed to prevent air pockets in the cooling system during a preventative maintenance process or repair. Use the CEX-14 to drain, filter & store coolant during a preventative maintenance process or repair.

In addition, the CEX-14 can also be used to pressure test and vacuum test the cooling system.

- Fast & Clean
- Eliminates Air Pockets
- Portable
- Samples easy to get during drain process
